

Multilayer Type Mini Speaker

Industry-thinnest contributes miniaturization of application.

■ Features

- Mini, Ultra Thin ($\phi 20 \times 0.6t$), yet High Sound Pressure
- Solder-less Construction by HDK Printing Technology
- Using High Reliability Multilayer Vibrating Plate by HDK-developed High-efficient LTC Piezo material

■ Applications

- Digital Still Camera, Digital Video Camera, MD(Mini Disk), Cell Phone, Electronic Dictionary, Game, etc.

■ Outer Dimension

* More than 0.5mm of open spaces in front of and rear of speaker is recommended to provide.

■ Rating

Model No. HAP-BME-20-13N01

Sound Pressure	72dB Min. at 1Vrms Sine Wave, Mic. Distance 10cm, Sound Pressure averaging at 0.8k, 1k, 1.5k, 2kHz
Resonant Frequency	1,150Hz~1,550Hz
Static Capacitance	700nF $\pm 30\%$
Rated Input Voltage	1Vrms (2.8Vp-p)
Maximum Input Voltage	10Vp-p
Operating Temperature Range	-20°C ~ +60°C
Storage Temperature Range	-30°C ~ +70°C

■ Frequency Characteristics (Example)

Input Voltage 1Vrms Sine Wave Mic. Distance 10cm
